RESTORE AND PRESERVE

The X-100 Natural Seal® family of products locks in years of defense against environmental damage and decay, maintaining the natural beauty of wood surfaces. Each blend of X-100 Natural Seal® combines high-performance wood protectants with a targeted application base. The distinguishing formulas of X-100 Natural Seal® make it the most effective wood coating available for decks, roofs, siding, fences, and more.

**COVERAGE:** See chart below.

*Spread rates will vary depending on porosity of the woods surface.

**ABR® Deck & Siding Wash**

- Versatile, concentrated, biodegradable, one step cleaner that removes the airborne contaminates that attach themselves to decks, logs, sidewalls, dimensional lumber, brick, metal, plastics, painted aluminum siding and most other substrates.
- Works with pressure washers, steam cleaners or hand washing in hot or cold water.
- Contains No phosphates, No caustics and No acid — will not etch glass.

**COVERAGE:** 300 sq. ft./gal. when diluted according to instructions, and depending on the porosity of wood.

*CONCENTRATE: 1 gallon makes 10 ready-to-use gallons. May be used up to a 1:10 dilution, covering up to 3,000 sq. ft. per gallon, for light cleaning.

**X-180 Weathered Wood Restorer™**

- For surfaces, including: sidewalls, decks, fencing, shake roofs, logs, and dimensional lumber.
- Exterior wood cleaner that rejuvenates wood to its original rich warm color by removing years of fungus growth, dead wood cells, lignin, dirt and discoloration.
- Biodegradable, non-corrosive and will not dissolve the cellulose in wood.
- For neutralizing strippers.

**COVERAGE:** 150 to 250 sq. ft./gal.

*CONCENTRATE: 1 gallon makes 5 ready-to-use gallons.

Read Entire MSDS and safety precautions on label before using products. Read all product specifications before use. This catalog contains brief product descriptions and is not intended as a complete set of directions or statements of product performance.
Citrus Formula Paint Remover Paste removes thick layers of paint from this ornate wood detail or this painted light fixture, in one application.

### ABR® Citrus Formula Paint Remover
**Paste, Gel and Liquid**

- Unique, cost effective, reusable formula for the removal of multiple layers of finish, varnish, stains, latex paint and oil paint, as well as log exteriors and interiors and on fine furniture and cabinets.
- Designed to remain moist and active longer, penetrating more layers of paint mil thickness in one application. Paste formula may be removed and reused on multiple surfaces.
- A non-caustic, biodegradable formula that contains no methylene chloride, eliminating subsequent neutralizing.
- Liquid is excellent for refinishing work to remove layers of varnish, stain, graffiti, and paint splatter.

**COVERAGE:** Paste—25 to 75 sq. ft./gal.; Gel—75 to 125 sq. ft./gal.; Liquid—200 to 250 sq. ft./gal.

### Grip 'N Strip®

- Removes multiple layers of lead-based oils, latex paints, varnishes, stains and other finishes in one application on wood and masonry, and is an ideal paint remover for overhangs and ceilings.
- Paste like consistency that clings to vertical and overhang surfaces, allowing penetration of more layers of paint mil thickness.
- Requires neutralizing.

**COVERAGE:** 25 to 50 sq. ft./gal., depending on layers to be removed.

### ABR StripIt-All®

- Water soluble gel removes multiple layers of latex paints, stains, varnishes, linseed oils and other coatings.
- Removes finishes from all types of surfaces, including masonry.
- Requires neutralizing.

**COVERAGE:** 50 to 100 sq. ft./gal., depending on layers of paint.

### ABR Fast Finish Remover®

- An economical, water soluble, concentrated liquid dissolver of stains, latex paints, varnishes, linseed oils and other coatings that hide the original color and texture of wood and masonry.
- Requires neutralizing.

**COVERAGE:** 50 to 100 sq. ft./gal., depending on number of layers.

*CONCENTRATE: 1 gallon makes 5 ready-to-use gallons.*

STRIP AND REMOVE

Super Bio Strip™
Liquid and Gel
- A water soluble, multi-purpose stripper and refinisher that is biodegradable, non-flammable and contains no methylene chloride.
- Formulated in two viscosities: Liquid for easy to strip or clean surfaces; Gel for more difficult tasks with heavy accumulations of paint or use as a poultice stain remover.
- Remove a wide variety of paints, stains, graffiti and varnishes from both exterior and interior surfaces of wood, metal, masonry, fiberglass and marine surfaces.
- Requires no neutralizing.

700XX Extra Strength
Special Coating Stripper
- Dissolves a broad range of finishes.
- Does not require neutralization.
- A methylene chloride based gel designed to strip paint, varnish, epoxy, polyurethane, elastomeric coatings, epoxies, swimming pool chlorinates and marine finishes.
- Water rinsable.

800 PAINT REMOVERS
800 Fast Acting, 800 Brush Grade, and 800 Neutralizer
- 800 PAINT REMOVERS ARE FOR PROFESSIONAL USE ONLY.
- Water soluble, thick, caustic strippers formulated to strip multiple layers of organic paint finishes, and both latex and oil base paint from wood and masonry.
- Adheres to vertical surfaces, and remains wet for longer periods of time allowing for deeper penetration into the paint film without bubbling the finish.
- Most effective if kept damp by misting with water.

TR-7 Tar & Mastic Remover
- A methylene chloride based gel that dissolves rubber type mastics, tile adhesives and tar.

700XX Extra Strength
Special Coating Stripper

Read Entire MSDS and safety precautions on label before using products. Read all product specifications before use. This catalog contains brief product descriptions and is not intended as a complete set of directions or statements of product performance.
CLEAN AND RESTORE

ABR® Waterless Cleaning Poultice
- Cleaning coating designed to remove dirt, grime, soot and years of environmental pollutants from surfaces where a waterless cleaning method is needed.
- Easy-to-use three step process—Paint on. Let it dry. Peel the dirt away.
- Apply to both interior and exterior textured stone, limestone, sandstone, marble, granite, slate, terra cotta, ceramic, terrazzo, concrete, tile, brick, plastic, painted or bare metal.

**COVERAGE:** 50 to 75 sq. ft./gal. at 1/8” dry.

ABR® Waterless Fireplace Cleaner
- A peelable cleaning coating designed to remove soot, dirt and grime from your fireplace surround.
- Simply apply, let dry and peel the dirt away.
- For use on interior and exterior brick, textured stone, concrete, marble, ceramic, terrazzo, slate, limestone, tile and granite.
- This removable coating requires NO water in its application or removal.

**COVERAGE:** 50 to 75 sq. ft./gal. at 1/8” dry.

500 Limestone Prewash
- Professional grade, alkaline based cleaning solution used to remove heavy carbon, dirt and other atmospheric stains from dirty limestone surfaces.
- Designed to work in conjunction with 500 Limestone Afterwash.

**COVERAGE:** 125 sq. ft./gal.

500 Limestone Afterwash
- Concentrated acid cleaner formulated for use with 500 Limestone Prewash.
- Removes all traces of 500 Limestone Prewash left behind after rinsing.
- Removes slightly soiled carbon, dirt and other atmospheric stains from porous limestone surfaces when used by itself.

**COVERAGE:** 400 to 500 sq. ft./gal.

X-190 Limestone & Concrete Cleaner
- Restores a new appearance to slightly dirty or discolored limestone, poured concrete, precast, poured aggregate and travertine.

**COVERAGE:** 150 to 200 sq. ft./gal.
**Clean and Restore**

**Etch & Clean**
- An acidic concentrate with degreasing additives for use on concrete surfaces.
- Sets up a clean, bondable surface for epoxies, latex paint, urethanes, ceramic tiles and other coatings.

**Coverage:** 200 sq. ft./gal. without dilution.
* Concentrate: 1 gallon makes 5 ready-to-use gallons. May be used up to a 1:5 dilution, covering up to 1,000 sq. ft. per gallon, for light cleaning.

**801 Heavy Duty Masonry Cleaner**
- Formulated to clean old masonry construction, removing years of airborne dirt, exhaust residue, industrial pollutants, fire damage and smoke residue.
- Suitable for use on brick, sandstone, fieldstone, terra cotta, stucco, clay and slate.
- A blend of inorganic acids in a surfactant solution of water soluble and biodegradable detergents.

**Coverage:** 200 sq. ft./gal.

**Building Wash 3**
- Versatile one step building cleaner designed to remove surface dirt, and paint oxidation from painted and non-painted surfaces without brushing when used with high pressure washing equipment.
- Cleans brick, metal, plastics, and painted aluminum siding.
- Works well with pressure washer, steam cleaner or manual washing in hot or cold water.
- Biodegradable, contains NO phosphates, caustics or acid, and will not etch glass.

**Coverage:** 250 to 300 sq. ft./gal. without dilution.
* Concentrate: 1 gallon makes 10 ready-to-use gallons. May be used up to a 1:10 dilution, covering up to 3,000 sq. ft. per gallon, for light cleaning.

**635 & 600B**
- New Masonry Brick Wash Detergent
  - Removes excess grout and cleans mortar splatter and staining that occur in new construction.
  - Recommended for use on light colored buff, tan, pinks, glazed brick, tile, stone, exposed aggregate.
  - Ideal for all types of masonry construction.
  - Contains metal inhibitors to control metallic staining, and will not yellow or bleach natural or colored mortar joints, when used in accordance with directions.

**Coverage:** 400 sq. ft./gal.
* Concentrate: 1 gallon makes 12 ready-to-use gallons.

**ABR®-50 Rust Remover**
- Removes rust from metal surfaces and stains caused by iron deposits impregnated into masonry.

**Coverage:** 100 to 200 sq. ft./gal.

**ABR®-8 Degreaser**
- A concentrated, non-flammable, strong alkaline soap solution used to degrease factory walls, ceilings, floors, engines, restaurant hoods, ducts and machinery.

**Coverage:** 150 sq. ft./gal., after proper dilution ratio.

---

Read Entire MSDS and safety precautions on label before using products. Read all product specifications before use. This catalog contains brief product descriptions and is not intended as a complete set of directions or statements of product performance.
**SPECIALTY PRODUCTS**

---

**ABR®-60 Liquid Latex Binder**
- An acrylic liquid polymer specially formulated for use in cement base mixes.
- Provides a tough, self-cured surface for dense concrete and masonry that ensures the highest bonding qualities in tuck-pointing mortars, improves adhesion, increases bonding, reduces cracking.
- Use for regular weight and light weight spray applied coatings, traditional trowel applied stuccos, terrazzo, floor surfaces, basement waterproof, coatings and underlayments.
- For interior and exterior applications.

**Coverage:** 350 to 400 sq. ft./gal.

---

**600 Pre-Thickened Efflorescence & Lime Dissolver**
- Dissolves efflorescence, lime and calcium base paints often found on old historical landmarks.
- Removes excess mortar from brick work.
- A slow evaporating thick gel that clings to the surface, allowing it to penetrate and remain on the surface longer making a single application more efficient than repeated applications of a liquid acid.
- Contains metal inhibitors to control metallic staining.
- Will not etch glass, yellow mortar joints or bleach colored and/or natural joints when used in accordance with directions.

**Coverage:** 50 sq. ft./gal.

---

**ABR® Marble Polish**
- Restores polished marble, granite, and other smooth, glossy stone.
- A rubbing compound for use with a power buffer during the polishing process.

**Coverage:** 100 to 200 sq. ft./gal.

---

**ABR® Stone & Marble Guard**
- A penetrating, stain resistant, water repellent sealer for polished and unpolished marble, granite, slate travertine, mosaics, onyx and sandstone.
- Can also be applied to paint, caulk, grout, EFIS (exterior insulation and finish systems), Dryvit® or stucco and is suitable for both interior and exterior use.
- Enhanced with UV absorbers.
- Penetrates deep into sub-straight to form an invisible, non-film forming barrier that is resistant to oil, water, grease, coffee, cola, food stains and solvent based markers.

**Coverage:** 800 to 4,000 sq. ft./gal. depending on the porosity of the surface being treated.

---

**ABR® Stone & Marble Guard Deep Penetrating Stone Enhancer**
- A smooth, viscous cream designed to enrich stone color and improve the stones overall appearance that may have faded over time, it’s penetrating nature ensures no product build up.

**Coverage:** 200 to 2500 sq. ft./gal. depending on the porosity of the surface being treated.

---

**ABR® Stone & Marble Guard Stone Enhancer/Polish**
- A high solids liquid designed to enhance the luster of smooth and polished stone surfaces.

**Coverage:** 100 to 200 sq. ft./gal. depending on the porosity of the surface being treated.

---

**Hydro Seal 100™ and 200™**
- Breathing water repellents blended in a proprietary formulation of complex salines and stearates.
- Contains additional micro-solids that migrate inward to fill hairline cracks, thus preventing possible water damage from freeze/thaw expansion.
- Effective in efflorescence control, spalling, salt erosion and staining while allowing the surface to transmit vapor.
- Apply to all types of interior and exterior masonry, concrete, brick, tile, stucco, terra cotta and granite.

**Coverage:** 100 to 200 sq. ft./gal., depending on porosity of surface.

---

**Hydro Seal 300™**
- Versatile, waterborne emulsion, water repellent and stain protector.
- Fast and effective protection against U.V. damage and stains.
- Apply to masonry, stucco, brick pavers, concrete, aluminum, marble, fabric and asphalt roofs.
- Control efflorescence and spalling by waterproofing masonry, brick, block and stone.
- Protects concrete by sealing and waterproofing the surface, preventing spalling and protecting against de-icing salts, mildew and stains.

**Coverage:** 100 to 200 sq. ft./gal., depending on porosity of surface.

---

SPECIALTY PRODUCTS

ABR® Metal & Fiberglass Polish
- Removes light oxidation stains and restores the brilliance to metal, and clean fiberglass surfaces exposed to the environment.
- A cleaner recommended to polish oxidation stains on aluminum diamond plate, cast, rolled and machined aluminum as well as copper, bronze, brass, nickel and other precious metals and fiberglass.
- For heavy oxidation and deeply embedded stains apply with fine steel wool or use the appropriate ABR® Restoration Cleaner — ABR®-50 Rust Remover, Copper & Brass Cleaners or AC-8 Aluminum Brightener Cleaner.
- A rubbing compound used with a damp cloth or rotary buffer.
COVERAGE: 500 to 800 sq. ft./pint.

ABR Liquid Shield®
- A clear acrylic coating designed to mask door and window glass.
- Used on interior or exterior painted or unpainted surfaces.
- Will adhere to wood (new construction) and painted surfaces but is easily removed from glass.
- Eliminates the need to mask the frame, grill work and sash of windows or doors with traditional paper and masking tape.
- Application to door and window frames using a roller, brush or airless sprayer.
COVERAGE: 200 to 250 sq. ft./gal.

ABR Rubber Mask®
- A temporary, removable latex coating that protects surfaces from over-spray, tuck-pointing smears and cleaning detergents.
- Use on interior and exterior surfaces of unpainted metal, Masonite, OSB, brick, textured stone, concrete and plastic.
- Application to frames and glass using a roller, brush or airless sprayer.
COVERAGE: 100 to 150 sq. ft./gal.

AC-8 Aluminum Bright Cleaner
- A concentrated, water soluble cleaner designed to restore bare aluminum, remove oxidation from painted aluminum, and clean aluminum chalk run off on masonry.
- A complete cleaning process may require the use of ABR® Metal & Fiberglass Polish, followed by POLYShield® Regular.
COVERAGE: 600 to 800 sq. ft./gal.

ABR® Glass De-Etcher and X-19 Glass Cleaner & Restorer
- ABR® Glass De-Etcher is a polishing compound that removes hydrofluoric acid burn stains from glass.
- X-19 Glass Cleaner & Restorer is an acidic blend of wetting agents and detergents especially formulated to restore glass surfaces.
- ABR® Glass De-Etcher and X-19 Glass Cleaner & Restorer remove hard water marks and stains caused by run-off from unsealed masonry, airborne pollution and acid rain haze that causes oxidation to glass.
COVERAGE: De-Etcher—500 to 800 sq. ft./pint X-19—250 to 500 sq. ft./gal.

Copper & Brass 1st Step Prewash and 2nd Step Brightener
- The ABR® 1st Step Copper & Brass Prewash is designed to restore oxidized and discolored copper, brass and bronze.
- ABR®’s 1st Step Copper & Brass Prewash will remove the green oxidation from copper, brass and bronze.
- ABR®’s 2nd Step Copper & Brass Brightener is the second step that removes the darker discoloration remaining on the metal surface, thereby cleaning and brightening the metals.
COVERAGE: 1st Step—50 to 100 sq. ft./gal. 2nd Step—200 to 500 sq. ft./gal.

Read Entire MSDS and safety precautions on label before using products. Read all product specifications before use. This catalog contains brief product descriptions and is not intended as a complete set of directions or statements of product performance.
Graffiti and Vandalism

POLYShield® Regular Graffiti Preventer
- An invisible barrier that acts as a shield preventing the absorption of vandalistic markings into the substrate.
- Prevents oxidation to painted aluminum, restores faded painted surfaces and reduces dirt buildup from clinging to surfaces.
- Can be applied to all painted and unpainted surfaces, including: wood, aluminum, metal and viny, brick, natural stone, concrete and stucco.
- Designed for interior and exterior use.
**Coverage:** Painted surfaces—1,000 to 1,500 sq. ft./gal. depending on the surface finish. Unpainted masonry—100 to 300 sq. ft./gal. depending on the finish and the porosity of the surface.

POLYShield® Graffiti Preventer Type B for unpainted masonry
- Formulated to prevent graffiti from penetrating and staining unpainted masonry surfaces.
- Can be applied to all unpainted surfaces, including: brick, natural stone, concrete, and stucco.
**Coverage:** Painted surfaces—250 to 500 sq. ft./gal. depending on the surface finish. Unpainted masonry—100 to 300 sq. ft./gal. depending on the finish and porosity of the surface.

Citrus Formula Tag Zap® Graffiti Removal Liquid
- A solution designed to dissolve graffiti and vandalistic stains such as spray paint, silicone, dye and marker pens from painted and non-painted surfaces.
- Produces excellent results when used on surfaces protected with Tag Zap® Graffiti Barrier.
**Coverage:** 100 to 150 sq. ft./gal. depending on the vandalistic stain to be removed.

Tag Zap® Graffiti Barrier
- A waterborne, U.V. resistant, cross linking, acrylic coating formulated to prevent graffiti from adhering to surfaces, while producing a translucent finish.
- Protects a variety of painted and unpainted, interior and exterior surfaces from graffiti defacement, including: painted wood, brick, masonry, concrete, metal, plastic and aluminum.
- As the Barrier is exposed to U.V., the cross-linking acrylic becomes stronger to create a semi to permanent defacement shield preventing absorption of vandalistic harm into the surface.
- Available in gloss and semi-gloss.
- Easy to apply and clean up.
**Coverage:** Porous surfaces—100 to 250 sq. ft./gal. Painted surfaces—500 sq. ft./gal.

800 Fast Acting
- **800 Fast Acting Paint Remover is for professional use only.**
- Water soluble, thick, caustic strippers formulated to strip multiple layers of organic paint finishes, and both latex and oil base paint from wood and masonry.
- Adheres to vertical surfaces, and remains wet for longer periods of time allowing for deeper penetration into the paint film without bubbling the finish.
- Most effective if kept damp by misting with water.
**Coverage:** 50 to 75 sq. ft./gal.

- **Aluminum Stains, Oxidation and Run-Off**: Building Wash 3 Cleaning Poultice, ABR Glass De-Etcher, ABR-8 Degreaser
- **Asphalt, Tar and Adhesives**: Citrus Paint Removers TR-7, ABR Strip It All
- **Accumulated Atmospheric Pollution—20 years or more**: 801 Heavy Duty Cleaning Poultice, ABR-190
- **Carbon (Soot), Smoke and Fire Damage**: 801 Heavy Duty, Fireplace Cleaner, TR-7, ABR-190
- **Caulking, Decals and Glazing**: Citrus Paint Removers TR-7, ABR-8 Degreaser
- **Concrete Coating and Inorganic Lime Wash (Chalk) Paint**: 600 Pre-Thickened, ABR-8 Degreaser
- **Copper, Brass and Bronze Oxidation and Stains**: ABR-50, ABR-190
- **Elastomeric Coatings, Chlorinated Rubber Coatings and Rubber Swirling Pool Paints**: Citrus Paint Removers, ABR-8 Degreaser
- **Epoxy/Silicone Paint**: Citrus Paint Remover Paste, ABR-8 Degreaser
- **Graffiti**: 800 Fast Acting, ABR-50
- **Graffiti-Deep Shadows**: 800 Fast Acting, ABR-8 Degreaser
- **Paint Overspray**: Fast Finish Remover, ABR-8 Degreaser
- **Gum (chewing), Magic Marker, Ink & Lipstick**: 700XX, TR-7, ABR-8 Degreaser
- **Paint—over 3 coats**: Citrus Paint Remover Paste, ABR-50
- **New Coat, Morter—Thin**: ABR-50, ABR-8 Degreaser
- **Oil-Motor, Fuel, Hydraulic & Grease**: ABR-8 Degreaser, ABR-50
- **Paint—Latex and/or Oil—up to 3 coats**: Citrus Paint Removers, ABR-8 Degreaser
- **Paint—Oil, Lead Based, and Milk Based**: Grip ’N Strip, ABR-8 Degreaser
- **Polyurethane**: Citrus Paint Removers, ABR-50
- **Rust & Rust Stains**: ABR-50, ABR-8 Degreaser
- **Stains—Exterior, Semi-Transparent, Semi-Solid Color**: ABR Strip It All, ABR-8 Degreaser
- **Transparent Film Forming Resin or Lined Oil—Exterior**: Citrus Paint Remover Paste, ABRStrip It All
- **Varnish, Polyurethan or Stains—Interior**: Citrus Paint Remover Gel, ABR-8 Degreaser
- **Vine Remnants—After Tear-off**: Fast Finish Remover, ABR-50
- **Transparent and Semi-transparent Stains**: Fast Finish Remover, ABR-190
